

— PLEASE HELP SAVE \$\$ —

GLASS DIVERSION

— AT THE TRANSFER STATION —

Beginning Nov 1, 2022

WHAT GLASS BOTTLES & JARS

*Any glass food and beverage
bottle or jar, such as:*

Wine bottles
Juice & Tea bottles
Mason jars
Salsa jars, etc.

WHAT **NOT** TO INCLUDE:

Lids,
Pyrex,
Window glass,
Candle containers,
Plates or Mugs,
Drinking glasses,
Mirrors,
Light bulbs

WHERE

Put them in the labeled dumpster
across from the single stream.

(If you would like, keep separating
glass 5¢ redemption bottles,
and put them in the redemption
area as charitable donations)

WHY

- We have a new opportunity to recycle and reuse glass bottles & jars locally. They will go to Springfield, VT, and be ground into “processed glass aggregate” for local contractors to use in building and road foundations.
- Recycling glass with single-stream recycling is very expensive. Using this program will save over \$100 per ton of glass recycled.
