

If you're looking to set up a home system that works for you, give us a call. We're here to help!

Community Member Review

"Talking with [WSWMD] was super helpful. I didn't realize how much I could put in my compost bin. I also didn't know that some of what I put in there wasn't that great. Either way, since talking it over, I have a better understanding and set up of my personalized system and I'm throwing out half the amount of trash I used to. Win-win!"

Kitchen Scrap Collection

windhamsolidwaste.org

We have easy to implement systems for your kitchen space and lots of ideas.

ASK US HOW

Setting up for Success

Diverting food scraps from your household trash is one of the easiest ways to reduce your impact on the climate and it's a win-win as it will help your household comply with Vermont's Act 148.

Act 148 states that as of July 1, 2020 all food scraps are banned from the trash. This helps to reduce methane emissions and save space in Vermont's last landfill.

Truly, all it takes is putting the right containers in the right places. Setting up a food scrap container and knowing what can and cannot be placed in it can be confusing. Let us help.

Sure Close Kitchen Caddy

\$10

This perforated-top container is an easy way to collect food scraps without the hassle of fruit and house flies. This tool can be purchased at WSWMD.

Food Scrap Collecting Tips

Free

Knowing what can and cannot go in your food scrap container is half the battle. Give us a call, send us an email, or visit us at WSWMD.

Drop off at WSWMD

Free

All WSWMD permit holders can drop off their food scraps here for free. Other transfer stations within our waste district also accept food scraps for free. Start diverting today and experience the many benefits for yourself!
